## Shipping Instructions:

Box up unit in a slightly oversized box with sufficient packing to ensure protection from any damage occurring during shipping. Note: This same box (in most cases) will be used to return the unit. Mark the outside of the box with your company name. Remove any adapter connection fittings or tools from your unit (not needed for calibration). Include all hoses, gauges, etc. required for operation. Filters must be in the unit when received or Mid-West 5 year warranty is void. Unit must be free of any liquid to avoid freezing during transit. Include completed order form. Indicate if any known repairs are needed or if abnormal service conditions were experienced.
